SAS Note	Details
64095	When using Map Lookup, the map view now correctly updates when users select a location from the returned results.
64094	The Advanced Search control now displays the correct area on a map when specifying non-standard tile sizes.
64092	When using Object Lookups, columns now have a minimum width, and a scrollbar displays enabling users to view additional columns. In addition, the size of the Object Lookups window has been increased.
